THE ORIGINAL TANNING HERO!

BRONZE AMBITION BRONZE MOUSSE

Back by popular demand, our truly loved Bronzing Mousse has been re-formulated and now offers a superior tanning experience. Turn heads this summer, if you dare to bare, with professional colour in just one application.

Combining the best of instant and self-tan to give you colour straight away that gradually develops into a deeper, richer colour that last for days. The light and tropically fragranced formulation is so easy to work over the skin and the tint of colour allows you to see exactly where you've applied, for added tanning confidence.
